

Nest Solutions

PLASSNEST

- The unique nest without slats
 - Increase floor space by $\approx 30\%$
 - Eliminate bio security issues
- Unified flock without 'North-South' separation
- Jump-in bench of 30cm
- Ideal for Cage Free Layers / Heavy Breeders
- Nests installed with gaps to enable free movement of birds and better airflow
- Removable floor mats for better hygiene and easy cleaning
- Allows more flexibility in feeding and drinking lines layout
- Ideal results with Plasson's drinking and feeding systems for Breeders

PLASSONEST

Spacious Nest

- Spacious nest ensures that the hens have plenty of room to move in optimal conditions
- Less spiking

No Slats

- More floor mating area for higher fertility
- Less shadowed area
- Less lost eggs through slats

Better Ventilation

- Better air flow for drier litter and cleaner eggs
- Improved fertility and hatchability
- Less Ammonia in house

Welfare Friendly

- The PLASSONEST design creates a pleasant environment for egg laying. The birds are free to move around the house and thus less stressed.

Clean-out Between Flocks

- Advanced lifting system coupled with the PLASSONEST folding leg design enables easy, fast and efficient cleaning.

Easier Training

- Unique leg design makes raising and lowering the nests simple and effortless. No tools required. Training bird for laying in nest is on floor level.
